**29 CFR Part 2560  
Employee Retirement Income Security Act  
of 1974; Rules and Regulations for  
Administration and Enforcement; Claims  
Procedure; Final Rule**

#### D. Federalism Summary Impact Statement

Although the Department has identified this regulation as possibly having federalism implications, those implications are limited. Therefore, in compliance with Executive Order 13132, 64 FR 43255 (August 10, 1999), the Department has taken a number of steps to consult with affected entities.

First, the Department has, throughout the process of developing the proposed regulation and the final regulation, provided State and local officials with significant opportunities for meaningful and timely input. After issuance of the proposed regulation, the Department invited public comment from all affected parties, including States and local governments, and held the public comment period open for an extended period. The Department further held a three-day public hearing and consulted separately with the major organizations that represent state and local government prior to finalizing the regulation.

The insurance commissioners of various states, acting collectively through the National Association of Insurance Commissioners (NAIC), provided substantial public comment on the proposed regulation and participated in the public hearing by submitting written testimony, testifying personally, and engaging in public discussion with the Department's panel of officials. The Department also invited all of the "Big 7" organizations<sup>62</sup> that represent state and local government to meet separately with the Department to discuss this regulation.

The NAIC and the Big 7 attendees have generally praised the Department for taking this regulatory action regarding ERISA covered plans because the Department's approach has generally paralleled the approach taken by many States in regulating the conduct of insurance companies doing business in their States. However, both the NAIC and the Big 7 attendees asked the Department to limit the application of the regulation to "self-funded" plans, which do not provide benefits through insurance directly regulated by the States. The NAIC and Big 7 attendees argued that many States have already provided protections to participants in

insured plans that are greater than that contained in the proposed regulation. The Department has not followed this suggestion, although the Department has sought to address the concerns raised by the NAIC and Big 7 attendees in other ways. (See, for example, the discussion below and elsewhere in this preamble regarding preemption.) It is the view of the Department that the importance of establishing uniform minimum procedural rights for all participants and beneficiaries in ERISA-covered group health plans outweighs the concerns of the State and local governments.

With respect specifically to preemption, Executive Order 13132 requires agencies taking such action to act in strict accordance with governing law and to restrict preemption to the minimum level necessary to achieve the objectives of the statute pursuant to which any regulations are promulgated. The Department has satisfied these requirements in this regulation.

The proposed regulation was silent on preemption. The Department intended that the scope of preemption that would result under the proposed regulation would be limited to the minimum level required by section 514 of the Act and the Supremacy Clause of the Constitution. The Department's intent remains the same with respect to this final regulation. The NAIC and other commenters argued that the proposal's silence on the subject of preemption was potentially confusing and asked the Department to make clear its views as to the preemptive effect of the final regulation. The Department has responded to these comments by adding paragraph (k) to the final regulation. Paragraph (k) provides interpretive guidance on preemption.

The Department's view of the preemptive effect of the regulation is consistent with the Department's intent that the regulation's preemptive effect be limited to the minimum required by section 514 and the Supremacy Clause. As explained elsewhere in this preamble, paragraph (k) specifically sets forth the Department view that State insurance laws are not preempted unless they "prevent the application" of a requirement of the regulation. In other words, State insurance laws are preempted by the final regulation only to the extent that those laws are in conflict with the regulation such that the State laws could not be read in harmony with the regulation.

In response to the specific concern most commonly expressed by state insurance commissioners, the Department stated further in paragraph (k)(2) its view that State-mandated external review procedures, which

operate outside the scope of plans' internal review procedures, are not preempted by promulgation of the regulation.

Thus, the Department has made every effort to limit the effect that the regulation will have on State law to the minimum imposed by operation of the statute and the Constitution.

Finally, Executive Order 13132 limits the extent to which agencies may impose mandates on State and local governments. This regulation does not create a mandate on State or local governments. The regulation does not impose any enforceable duties on these entities. This regulation will be implemented at the Federal level and imposes compliance obligations only on private industry. The regulation therefore does not require imposition on States of substantial direct compliance costs, mandates, duties, or similar obligations.

#### List of Subjects in 29 CFR Part 2560

Employee benefit plans, Employee Retirement Income Security Act, Benefit Claims Procedures.

For the reasons set out in the preamble, 29 CFR part 2560 is amended as follows:

#### **PART 2560—RULES AND REGULATIONS FOR ADMINISTRATION AND ENFORCEMENT**

1. The authority citation for part 2560 continues to read as follows:

**Authority:** Secs. 502, 505 of ERISA, 29 U.S.C. 1132, 1135, and Secretary's Order 1-87, 52 FR 13139 (April 21, 1987).

Section 2560-502-1 also issued under sec. 502(b)(1), 29 U.S.C. 1132(b)(1).

Section 2560-502i-1 also issued under sec. 502(i), 29 U.S.C. 1132(i).

Section 2560-503-1 also issued under sec. 503, 29 U.S.C. 1133.

2. Section 2560.503-1 is revised to read as follows:

#### **§ 2560.503-1 Claims procedure.**

(a) *Scope and purpose.* In accordance with the authority of sections 503 and 505 of the Employee Retirement Income Security Act of 1974 (ERISA or the Act), 29 U.S.C. 1133, 1135, this section sets forth minimum requirements for employee benefit plan procedures pertaining to claims for benefits by participants and beneficiaries (hereinafter referred to as claimants). Except as otherwise specifically provided in this section, these requirements apply to every employee benefit plan described in section 4(a) and not exempted under section 4(b) of the Act.

(b) *Obligation to establish and maintain reasonable claims procedures.*

<sup>62</sup>The organizations invited were the National Governors Association, the National League of Cities, the National Conference of State Legislatures, the National Association of Counties, the U.S. Conference of Mayors, and the Council of State Governments. The meeting was attended by representatives of the National Governors Association, the National Conference of State Legislatures, and the National Association of Counties.

Every employee benefit plan shall establish and maintain reasonable procedures governing the filing of benefit claims, notification of benefit determinations, and appeal of adverse benefit determinations (hereinafter collectively referred to as claims procedures). The claims procedures for a plan will be deemed to be reasonable only if—

(1) The claims procedures comply with the requirements of paragraphs (c), (d), (e), (f), (g), (h), (i), and (j) of this section, as appropriate, except to the extent that the claims procedures are deemed to comply with some or all of such provisions pursuant to paragraph (b)(6) of this section;

(2) A description of all claims procedures (including, in the case of a group health plan within the meaning of paragraph (m)(6) of this section, any procedures for obtaining prior approval as a prerequisite for obtaining a benefit, such as preauthorization procedures or utilization review procedures) and the applicable time frames is included as part of a summary plan description meeting the requirements of 29 CFR 2520.102-3;

(3) The claims procedures do not contain any provision, and are not administered in a way, that unduly inhibits or hampers the initiation or processing of claims for benefits. For example, a provision or practice that requires payment of a fee or costs as a condition to making a claim or to appealing an adverse benefit determination would be considered to unduly inhibit the initiation and processing of claims for benefits. Also, the denial of a claim for failure to obtain a prior approval under circumstances that would make obtaining such prior approval impossible or where application of the prior approval process could seriously jeopardize the life or health of the claimant (e.g., in the case of a group health plan, the claimant is unconscious and in need of immediate care at the time medical treatment is required) would constitute a practice that unduly inhibits the initiation and processing of a claim;

(4) The claims procedures do not preclude an authorized representative of a claimant from acting on behalf of such claimant in pursuing a benefit claim or appeal of an adverse benefit determination. Nevertheless, a plan may establish reasonable procedures for determining whether an individual has been authorized to act on behalf of a claimant, provided that, in the case of a claim involving urgent care, within the meaning of paragraph (m)(1) of this section, a health care professional, within the meaning of paragraph (m)(7)

of this section, with knowledge of a claimant's medical condition shall be permitted to act as the authorized representative of the claimant; and

(5) The claims procedures contain administrative processes and safeguards designed to ensure and to verify that benefit claim determinations are made in accordance with governing plan documents and that, where appropriate, the plan provisions have been applied consistently with respect to similarly situated claimants.

(6) In the case of a plan established and maintained pursuant to a collective bargaining agreement (other than a plan subject to the provisions of section 302(c)(5) of the Labor Management Relations Act, 1947 concerning joint representation on the board of trustees)—

(i) Such plan will be deemed to comply with the provisions of paragraphs (c) through (j) of this section if the collective bargaining agreement pursuant to which the plan is established or maintained sets forth or incorporates by specific reference—

(A) Provisions concerning the filing of benefit claims and the initial disposition of benefit claims, and

(B) A grievance and arbitration procedure to which adverse benefit determinations are subject.

(ii) Such plan will be deemed to comply with the provisions of paragraphs (h), (i), and (j) of this section (but will not be deemed to comply with paragraphs (c) through (g) of this section) if the collective bargaining agreement pursuant to which the plan is established or maintained sets forth or incorporates by specific reference a grievance and arbitration procedure to which adverse benefit determinations are subject (but not provisions concerning the filing and initial disposition of benefit claims).

(c) *Group health plans.* The claims procedures of a group health plan will be deemed to be reasonable only if, in addition to complying with the requirements of paragraph (b) of this section—

(1)(i) The claims procedures provide that, in the case of a failure by a claimant or an authorized representative of a claimant to follow the plan's procedures for filing a pre-service claim, within the meaning of paragraph (m)(2) of this section, the claimant or representative shall be notified of the failure and the proper procedures to be followed in filing a claim for benefits. This notification shall be provided to the claimant or authorized representative, as appropriate, as soon as possible, but not later than 5 days (24 hours in the case of a failure to file a

claim involving urgent care) following the failure. Notification may be oral, unless written notification is requested by the claimant or authorized representative.

(ii) Paragraph (c)(1)(i) of this section shall apply only in the case of a failure that—

(A) Is a communication by a claimant or an authorized representative of a claimant that is received by a person or organizational unit customarily responsible for handling benefit matters; and

(B) Is a communication that names a specific claimant; a specific medical condition or symptom; and a specific treatment, service, or product for which approval is requested.

(2) The claims procedures do not contain any provision, and are not administered in a way, that requires a claimant to file more than two appeals of an adverse benefit determination prior to bringing a civil action under section 502(a) of the Act;

(3) To the extent that a plan offers voluntary levels of appeal (except to the extent that the plan is required to do so by State law), including voluntary arbitration or any other form of dispute resolution, in addition to those permitted by paragraph (c)(2) of this section, the claims procedures provide that:

(i) The plan waives any right to assert that a claimant has failed to exhaust administrative remedies because the claimant did not elect to submit a benefit dispute to any such voluntary level of appeal provided by the plan;

(ii) The plan agrees that any statute of limitations or other defense based on timeliness is tolled during the time that any such voluntary appeal is pending;

(iii) The claims procedures provide that a claimant may elect to submit a benefit dispute to such voluntary level of appeal only after exhaustion of the appeals permitted by paragraph (c)(2) of this section;

(iv) The plan provides to any claimant, upon request, sufficient information relating to the voluntary level of appeal to enable the claimant to make an informed judgment about whether to submit a benefit dispute to the voluntary level of appeal, including a statement that the decision of a claimant as to whether or not to submit a benefit dispute to the voluntary level of appeal will have no effect on the claimant's rights to any other benefits under the plan and information about the applicable rules, the claimant's right to representation, the process for selecting the decisionmaker, and the circumstances, if any, that may affect the impartiality of the decisionmaker,

such as any financial or personal interests in the result or any past or present relationship with any party to the review process; and

(v) No fees or costs are imposed on the claimant as part of the voluntary level of appeal.

(4) The claims procedures do not contain any provision for the mandatory arbitration of adverse benefit determinations, except to the extent that the plan or procedures provide that:

(i) The arbitration is conducted as one of the two appeals described in paragraph (c)(2) of this section and in accordance with the requirements applicable to such appeals; and

(ii) The claimant is not precluded from challenging the decision under section 502(a) of the Act or other applicable law.

(d) *Plans providing disability benefits.* The claims procedures of a plan that provides disability benefits will be deemed to be reasonable only if the claims procedures comply, with respect to claims for disability benefits, with the requirements of paragraphs (b), (c)(2), (c)(3), and (c)(4) of this section.

(e) *Claim for benefits.* For purposes of this section, a claim for benefits is a request for a plan benefit or benefits made by a claimant in accordance with a plan's reasonable procedure for filing benefit claims. In the case of a group health plan, a claim for benefits includes any pre-service claims within the meaning of paragraph (m)(2) of this section and any post-service claims within the meaning of paragraph (m)(3) of this section.

(f) *Timing of notification of benefit determination.* (1) *In general.* Except as provided in paragraphs (f)(2) and (f)(3) of this section, if a claim is wholly or partially denied, the plan administrator shall notify the claimant, in accordance with paragraph (g) of this section, of the plan's adverse benefit determination within a reasonable period of time, but not later than 90 days after receipt of the claim by the plan, unless the plan administrator determines that special circumstances require an extension of time for processing the claim. If the plan administrator determines that an extension of time for processing is required, written notice of the extension shall be furnished to the claimant prior to the termination of the initial 90-day period. In no event shall such extension exceed a period of 90 days from the end of such initial period. The extension notice shall indicate the special circumstances requiring an extension of time and the date by which the plan expects to render the benefit determination.

(2) *Group health plans.* In the case of a group health plan, the plan administrator shall notify a claimant of the plan's benefit determination in accordance with paragraph (f)(2)(i), (f)(2)(ii), or (f)(2)(iii) of this section, as appropriate.

(i) *Urgent care claims.* In the case of a claim involving urgent care, the plan administrator shall notify the claimant of the plan's benefit determination (whether adverse or not) as soon as possible, taking into account the medical exigencies, but not later than 72 hours after receipt of the claim by the plan, unless the claimant fails to provide sufficient information to determine whether, or to what extent, benefits are covered or payable under the plan. In the case of such a failure, the plan administrator shall notify the claimant as soon as possible, but not later than 24 hours after receipt of the claim by the plan, of the specific information necessary to complete the claim. The claimant shall be afforded a reasonable amount of time, taking into account the circumstances, but not less than 48 hours, to provide the specified information. Notification of any adverse benefit determination pursuant to this paragraph (f)(2)(i) shall be made in accordance with paragraph (g) of this section. The plan administrator shall notify the claimant of the plan's benefit determination as soon as possible, but in no case later than 48 hours after the earlier of—

(A) The plan's receipt of the specified information, or

(B) The end of the period afforded the claimant to provide the specified additional information.

(ii) *Concurrent care decisions.* If a group health plan has approved an ongoing course of treatment to be provided over a period of time or number of treatments—

(A) Any reduction or termination by the plan of such course of treatment (other than by plan amendment or termination) before the end of such period of time or number of treatments shall constitute an adverse benefit determination. The plan administrator shall notify the claimant, in accordance with paragraph (g) of this section, of the adverse benefit determination at a time sufficiently in advance of the reduction or termination to allow the claimant to appeal and obtain a determination on review of that adverse benefit determination before the benefit is reduced or terminated.

(B) Any request by a claimant to extend the course of treatment beyond the period of time or number of treatments that is a claim involving urgent care shall be decided as soon as

possible, taking into account the medical exigencies, and the plan administrator shall notify the claimant of the benefit determination, whether adverse or not, within 24 hours after receipt of the claim by the plan, provided that any such claim is made to the plan at least 24 hours prior to the expiration of the prescribed period of time or number of treatments.

Notification of any adverse benefit determination concerning a request to extend the course of treatment, whether involving urgent care or not, shall be made in accordance with paragraph (g) of this section, and appeal shall be governed by paragraph (i)(2)(i), (i)(2)(ii), or (i)(2)(iii), as appropriate.

(iii) *Other claims.* In the case of a claim not described in paragraphs (f)(2)(i) or (f)(2)(ii) of this section, the plan administrator shall notify the claimant of the plan's benefit determination in accordance with either paragraph (f)(2)(iii)(A) or (f)(2)(iii)(B) of this section, as appropriate.

(A) *Pre-service claims.* In the case of a pre-service claim, the plan administrator shall notify the claimant of the plan's benefit determination (whether adverse or not) within a reasonable period of time appropriate to the medical circumstances, but not later than 15 days after receipt of the claim by the plan. This period may be extended one time by the plan for up to 15 days, provided that the plan administrator both determines that such an extension is necessary due to matters beyond the control of the plan and notifies the claimant, prior to the expiration of the initial 15-day period, of the circumstances requiring the extension of time and the date by which the plan expects to render a decision. If such an extension is necessary due to a failure of the claimant to submit the information necessary to decide the claim, the notice of extension shall specifically describe the required information, and the claimant shall be afforded at least 45 days from receipt of the notice within which to provide the specified information. Notification of any adverse benefit determination pursuant to this paragraph (f)(2)(iii)(A) shall be made in accordance with paragraph (g) of this section.

(B) *Post-service claims.* In the case of a post-service claim, the plan administrator shall notify the claimant, in accordance with paragraph (g) of this section, of the plan's adverse benefit determination within a reasonable period of time, but not later than 30 days after receipt of the claim. This period may be extended one time by the plan for up to 15 days, provided that the plan administrator both determines that

such an extension is necessary due to matters beyond the control of the plan and notifies the claimant, prior to the expiration of the initial 30-day period, of the circumstances requiring the extension of time and the date by which the plan expects to render a decision. If such an extension is necessary due to a failure of the claimant to submit the information necessary to decide the claim, the notice of extension shall specifically describe the required information, and the claimant shall be afforded at least 45 days from receipt of the notice within which to provide the specified information.

(3) *Disability claims.* In the case of a claim for disability benefits, the plan administrator shall notify the claimant, in accordance with paragraph (g) of this section, of the plan's adverse benefit determination within a reasonable period of time, but not later than 45 days after receipt of the claim by the plan. This period may be extended by the plan for up to 30 days, provided that the plan administrator both determines that such an extension is necessary due to matters beyond the control of the plan and notifies the claimant, prior to the expiration of the initial 45-day period, of the circumstances requiring the extension of time and the date by which the plan expects to render a decision. If, prior to the end of the first 30-day extension period, the administrator determines that, due to matters beyond the control of the plan, a decision cannot be rendered within that extension period, the period for making the determination may be extended for up to an additional 30 days, provided that the plan administrator notifies the claimant, prior to the expiration of the first 30-day extension period, of the circumstances requiring the extension and the date as of which the plan expects to render a decision. In the case of any extension under this paragraph (f)(3), the notice of extension shall specifically explain the standards on which entitlement to a benefit is based, the unresolved issues that prevent a decision on the claim, and the additional information needed to resolve those issues, and the claimant shall be afforded at least 45 days within which to provide the specified information.

(4) *Calculating time periods.* For purposes of paragraph (f) of this section, the period of time within which a benefit determination is required to be made shall begin at the time a claim is filed in accordance with the reasonable procedures of a plan, without regard to whether all the information necessary to make a benefit determination accompanies the filing. In the event that

a period of time is extended as permitted pursuant to paragraph (f)(2)(iii) or (f)(3) of this section due to a claimant's failure to submit information necessary to decide a claim, the period for making the benefit determination shall be tolled from the date on which the notification of the extension is sent to the claimant until the date on which the claimant responds to the request for additional information.

(g) *Manner and content of notification of benefit determination.* (1) Except as provided in paragraph (g)(2) of this section, the plan administrator shall provide a claimant with written or electronic notification of any adverse benefit determination. Any electronic notification shall comply with the standards imposed by 29 CFR 2520.104b-1(c)(1)(i), (iii), and (iv). The notification shall set forth, in a manner calculated to be understood by the claimant —

(i) The specific reason or reasons for the adverse determination;

(ii) Reference to the specific plan provisions on which the determination is based;

(iii) A description of any additional material or information necessary for the claimant to perfect the claim and an explanation of why such material or information is necessary;

(iv) A description of the plan's review procedures and the time limits applicable to such procedures, including a statement of the claimant's right to bring a civil action under section 502(a) of the Act following an adverse benefit determination on review;

(v) In the case of an adverse benefit determination by a group health plan or a plan providing disability benefits,

(A) If an internal rule, guideline, protocol, or other similar criterion was relied upon in making the adverse determination, either the specific rule, guideline, protocol, or other similar criterion; or a statement that such a rule, guideline, protocol, or other similar criterion was relied upon in making the adverse determination and that a copy of such rule, guideline, protocol, or other criterion will be provided free of charge to the claimant upon request; or

(B) If the adverse benefit determination is based on a medical necessity or experimental treatment or similar exclusion or limit, either an explanation of the scientific or clinical judgment for the determination, applying the terms of the plan to the claimant's medical circumstances, or a statement that such explanation will be provided free of charge upon request.

(vi) In the case of an adverse benefit determination by a group health plan concerning a claim involving urgent care, a description of the expedited review process applicable to such claims.

(2) In the case of an adverse benefit determination by a group health plan concerning a claim involving urgent care, the information described in paragraph (g)(1) of this section may be provided to the claimant orally within the time frame prescribed in paragraph (f)(2)(i) of this section, provided that a written or electronic notification in accordance with paragraph (g)(1) of this section is furnished to the claimant not later than 3 days after the oral notification.

(h) *Appeal of adverse benefit determinations.* (1) *In general.* Every employee benefit plan shall establish and maintain a procedure by which a claimant shall have a reasonable opportunity to appeal an adverse benefit determination to an appropriate named fiduciary of the plan, and under which there will be a full and fair review of the claim and the adverse benefit determination.

(2) *Full and fair review.* Except as provided in paragraphs (h)(3) and (h)(4) of this section, the claims procedures of a plan will not be deemed to provide a claimant with a reasonable opportunity for a full and fair review of a claim and adverse benefit determination unless the claims procedures—

(i) Provide claimants at least 60 days following receipt of a notification of an adverse benefit determination within which to appeal the determination;

(ii) Provide claimants the opportunity to submit written comments, documents, records, and other information relating to the claim for benefits;

(iii) Provide that a claimant shall be provided, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits. Whether a document, record, or other information is relevant to a claim for benefits shall be determined by reference to paragraph (m)(8) of this section;

(iv) Provide for a review that takes into account all comments, documents, records, and other information submitted by the claimant relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination.

(3) *Group health plans.* The claims procedures of a group health plan will not be deemed to provide a claimant with a reasonable opportunity for a full

and fair review of a claim and adverse benefit determination unless, in addition to complying with the requirements of paragraphs (h)(2)(ii) through (iv) of this section, the claims procedures—

(i) Provide claimants at least 180 days following receipt of a notification of an adverse benefit determination within which to appeal the determination;

(ii) Provide for a review that does not afford deference to the initial adverse benefit determination and that is conducted by an appropriate named fiduciary of the plan who is neither the individual who made the adverse benefit determination that is the subject of the appeal, nor the subordinate of such individual;

(iii) Provide that, in deciding an appeal of any adverse benefit determination that is based in whole or in part on a medical judgment, including determinations with regard to whether a particular treatment, drug, or other item is experimental, investigational, or not medically necessary or appropriate, the appropriate named fiduciary shall consult with a health care professional who has appropriate training and experience in the field of medicine involved in the medical judgment;

(iv) Provide for the identification of medical or vocational experts whose advice was obtained on behalf of the plan in connection with a claimant's adverse benefit determination, without regard to whether the advice was relied upon in making the benefit determination;

(v) Provide that the health care professional engaged for purposes of a consultation under paragraph (h)(3)(iii) of this section shall be an individual who is neither an individual who was consulted in connection with the adverse benefit determination that is the subject of the appeal, nor the subordinate of any such individual; and

(vi) Provide, in the case of a claim involving urgent care, for an expedited review process pursuant to which—

(A) A request for an expedited appeal of an adverse benefit determination may be submitted orally or in writing by the claimant; and

(B) All necessary information, including the plan's benefit determination on review, shall be transmitted between the plan and the claimant by telephone, facsimile, or other available similarly expeditious method.

(4) *Plans providing disability benefits.* The claims procedures of a plan providing disability benefits will not, with respect to claims for such benefits, be deemed to provide a claimant with

a reasonable opportunity for a full and fair review of a claim and adverse benefit determination unless the claims procedures comply with the requirements of paragraphs (h)(2)(ii) through (iv) and (h)(3)(i) through (v) of this section.

(i) *Timing of notification of benefit determination on review.* (1) *In general.*

(i) Except as provided in paragraphs (i)(1)(ii), (i)(2), and (i)(3) of this section, the plan administrator shall notify a claimant in accordance with paragraph (j) of this section of the plan's benefit determination on review within a reasonable period of time, but not later than 60 days after receipt of the claimant's request for review by the plan, unless the plan administrator determines that special circumstances (such as the need to hold a hearing, if the plan's procedures provide for a hearing) require an extension of time for processing the claim. If the plan administrator determines that an extension of time for processing is required, written notice of the extension shall be furnished to the claimant prior to the termination of the initial 60-day period. In no event shall such extension exceed a period of 60 days from the end of the initial period. The extension notice shall indicate the special circumstances requiring an extension of time and the date by which the plan expects to render the determination on review.

(ii) In the case of a plan with a committee or board of trustees designated as the appropriate named fiduciary that holds regularly scheduled meetings at least quarterly, paragraph (i)(1)(i) of this section shall not apply, and, except as provided in paragraphs (i)(2) and (i)(3) of this section, the appropriate named fiduciary shall instead make a benefit determination no later than the date of the meeting of the committee or board that immediately follows the plan's receipt of a request for review, unless the request for review is filed within 30 days preceding the date of such meeting. In such case, a benefit determination may be made by no later than the date of the second meeting following the plan's receipt of the request for review. If special circumstances (such as the need to hold a hearing, if the plan's procedures provide for a hearing) require a further extension of time for processing, a benefit determination shall be rendered not later than the third meeting of the committee or board following the plan's receipt of the request for review. If such an extension of time for review is required because of special circumstances, the plan administrator shall provide the claimant with written

notice of the extension, describing the special circumstances and the date as of which the benefit determination will be made, prior to the commencement of the extension. The plan administrator shall notify the claimant, in accordance with paragraph (j) of this section, of the benefit determination as soon as possible, but not later than 5 days after the benefit determination is made.

(2) *Group health plans.* In the case of a group health plan, the plan administrator shall notify a claimant of the plan's benefit determination on review in accordance with paragraphs (i)(2)(i) through (iii), as appropriate.

(i) *Urgent care claims.* In the case of a claim involving urgent care, the plan administrator shall notify the claimant, in accordance with paragraph (j) of this section, of the plan's benefit determination on review as soon as possible, taking into account the medical exigencies, but not later than 72 hours after receipt of the claimant's request for review of an adverse benefit determination by the plan.

(ii) *Pre-service claims.* In the case of a pre-service claim, the plan administrator shall notify the claimant, in accordance with paragraph (j) of this section, of the plan's benefit determination on review within a reasonable period of time appropriate to the medical circumstances. In the case of a group health plan that provides for one appeal of an adverse benefit determination, such notification shall be provided not later than 30 days after receipt by the plan of the claimant's request for review of an adverse benefit determination. In the case of a group health plan that provides for two appeals of an adverse determination, such notification shall be provided, with respect to any one of such two appeals, not later than 15 days after receipt by the plan of the claimant's request for review of the adverse determination.

(iii) *Post-service claims.* (A) In the case of a post-service claim, except as provided in paragraph (i)(2)(iii)(B) of this section, the plan administrator shall notify the claimant, in accordance with paragraph (j) of this section, of the plan's benefit determination on review within a reasonable period of time. In the case of a group health plan that provides for one appeal of an adverse benefit determination, such notification shall be provided not later than 60 days after receipt by the plan of the claimant's request for review of an adverse benefit determination. In the case of a group health plan that provides for two appeals of an adverse determination, such notification shall be provided, with respect to any one of

such two appeals, not later than 30 days after receipt by the plan of the claimant's request for review of the adverse determination.

(B) In the case of a multiemployer plan with a committee or board of trustees designated as the appropriate named fiduciary that holds regularly scheduled meetings at least quarterly, paragraph (i)(2)(iii)(A) of this section shall not apply, and the appropriate named fiduciary shall instead make a benefit determination no later than the date of the meeting of the committee or board that immediately follows the plan's receipt of a request for review, unless the request for review is filed within 30 days preceding the date of such meeting. In such case, a benefit determination may be made by no later than the date of the second meeting following the plan's receipt of the request for review. If special circumstances (such as the need to hold a hearing, if the plan's procedures provide for a hearing) require a further extension of time for processing, a benefit determination shall be rendered not later than the third meeting of the committee or board following the plan's receipt of the request for review. If such an extension of time for review is required because of special circumstances, the plan administrator shall notify the claimant in writing of the extension, describing the special circumstances and the date as of which the benefit determination will be made, prior to the commencement of the extension. The plan administrator shall notify the claimant, in accordance with paragraph (j) of this section, of the benefit determination as soon as possible, but not later than 5 days after the benefit determination is made.

(3) *Disability claims.* (i) Except as provided in paragraph (i)(3)(ii) of this section, claims involving disability benefits (whether the plan provides for one or two appeals) shall be governed by paragraph (i)(1) of this section, except that a period of 45 days shall apply instead of 60 days for purposes of that paragraph.

(ii) In the case of a multiemployer plan with a committee or board of trustees designated as the appropriate named fiduciary that holds regularly scheduled meetings at least quarterly, paragraph (i)(3)(i) of this section shall not apply, and the appropriate named fiduciary shall instead make a benefit determination no later than the date of the meeting of the committee or board that immediately follows the plan's receipt of a request for review, unless the request for review is filed within 30 days preceding the date of such meeting. In such case, a benefit

determination may be made by no later than the date of the second meeting following the plan's receipt of the request for review. If special circumstances (such as the need to hold a hearing, if the plan's procedures provide for a hearing) require a further extension of time for processing, a benefit determination shall be rendered not later than the third meeting of the committee or board following the plan's receipt of the request for review. If such an extension of time for review is required because of special circumstances, the plan administrator shall notify the claimant in writing of the extension, describing the special circumstances and the date as of which the benefit determination will be made, prior to the commencement of the extension. The plan administrator shall notify the claimant, in accordance with paragraph (j) of this section, of the benefit determination as soon as possible, but not later than 5 days after the benefit determination is made.

(4) *Calculating time periods.* For purposes of paragraph (i) of this section, the period of time within which a benefit determination on review is required to be made shall begin at the time an appeal is filed in accordance with the reasonable procedures of a plan, without regard to whether all the information necessary to make a benefit determination on review accompanies the filing. In the event that a period of time is extended as permitted pursuant to paragraph (i)(1), (i)(2)(iii)(B), or (i)(3) of this section due to a claimant's failure to submit information necessary to decide a claim, the period for making the benefit determination on review shall be tolled from the date on which the notification of the extension is sent to the claimant until the date on which the claimant responds to the request for additional information.

(5) *Furnishing documents.* In the case of an adverse benefit determination on review, the plan administrator shall provide such access to, and copies of, documents, records, and other information described in paragraphs (j)(3), (j)(4), and (j)(5) of this section as is appropriate.

(j) *Manner and content of notification of benefit determination on review.* The plan administrator shall provide a claimant with written or electronic notification of a plan's benefit determination on review. Any electronic notification shall comply with the standards imposed by 29 CFR 2520.104b-1(c)(1)(i), (iii), and (iv). In the case of an adverse benefit determination, the notification shall set forth, in a manner calculated to be understood by the claimant—

(1) The specific reason or reasons for the adverse determination;

(2) Reference to the specific plan provisions on which the benefit determination is based;

(3) A statement that the claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits. Whether a document, record, or other information is relevant to a claim for benefits shall be determined by reference to paragraph (m)(8) of this section;

(4) A statement describing any voluntary appeal procedures offered by the plan and the claimant's right to obtain the information about such procedures described in paragraph (c)(3)(iv) of this section, and a statement of the claimant's right to bring an action under section 502(a) of the Act; and

(5) In the case of a group health plan or a plan providing disability benefits—  
(i) If an internal rule, guideline, protocol, or other similar criterion was relied upon in making the adverse determination, either the specific rule, guideline, protocol, or other similar criterion was relied upon in making the adverse determination and that a copy of the rule, guideline, protocol, or other similar criterion will be provided free of charge to the claimant upon request;

(ii) If the adverse benefit determination is based on a medical necessity or experimental treatment or similar exclusion or limit, either an explanation of the scientific or clinical judgment for the determination, applying the terms of the plan to the claimant's medical circumstances, or a statement that such explanation will be provided free of charge upon request; and

(iii) The following statement: "You and your plan may have other voluntary alternative dispute resolution options, such as mediation. One way to find out what may be available is to contact your local U.S. Department of Labor Office and your State insurance regulatory agency."

(k) *Preemption of State law.* (1) Nothing in this section shall be construed to supersede any provision of State law that regulates insurance, except to the extent that such law prevents the application of a requirement of this section.

(2) (i) For purposes of paragraph (k)(1) of this section, a State law regulating insurance shall not be considered to prevent the application of a requirement of this section merely because such State law establishes a review procedure

to evaluate and resolve disputes involving adverse benefit determinations under group health plans so long as the review procedure is conducted by a person or entity other than the insurer, the plan, plan fiduciaries, the employer, or any employee or agent of any of the foregoing.

(ii) The State law procedures described in paragraph (k)(2)(i) of this section are not part of the full and fair review required by section 503 of the Act. Claimants therefore need not exhaust such State law procedures prior to bringing suit under section 502(a) of the Act.

(l) *Failure to establish and follow reasonable claims procedures.* In the case of the failure of a plan to establish or follow claims procedures consistent with the requirements of this section, a claimant shall be deemed to have exhausted the administrative remedies available under the plan and shall be entitled to pursue any available remedies under section 502(a) of the Act on the basis that the plan has failed to provide a reasonable claims procedure that would yield a decision on the merits of the claim.

(m) *Definitions.* The following terms shall have the meaning ascribed to such terms in this paragraph (m) whenever such term is used in this section:

(1)(i) A “claim involving urgent care” is any claim for medical care or treatment with respect to which the application of the time periods for making non-urgent care determinations—

(A) Could seriously jeopardize the life or health of the claimant or the ability of the claimant to regain maximum function, or,

(B) In the opinion of a physician with knowledge of the claimant’s medical condition, would subject the claimant to severe pain that cannot be adequately managed without the care or treatment that is the subject of the claim.

(ii) Except as provided in paragraph (m)(1)(iii) of this section, whether a claim is a “claim involving urgent care” within the meaning of paragraph

(m)(1)(i)(A) of this section is to be determined by an individual acting on behalf of the plan applying the judgment of a prudent layperson who possesses an average knowledge of health and medicine.

(iii) Any claim that a physician with knowledge of the claimant’s medical condition determines is a “claim involving urgent care” within the meaning of paragraph (m)(1)(i) of this section shall be treated as a “claim involving urgent care” for purposes of this section.

(2) The term “pre-service claim” means any claim for a benefit under a group health plan with respect to which the terms of the plan condition receipt of the benefit, in whole or in part, on approval of the benefit in advance of obtaining medical care.

(3) The term “post-service claim” means any claim for a benefit under a group health plan that is not a pre-service claim within the meaning of paragraph (m)(2) of this section.

(4) The term “adverse benefit determination” means any of the following: a denial, reduction, or termination of, or a failure to provide or make payment (in whole or in part) for, a benefit, including any such denial, reduction, termination, or failure to provide or make payment that is based on a determination of a participant’s or beneficiary’s eligibility to participate in a plan, and including, with respect to group health plans, a denial, reduction, or termination of, or a failure to provide or make payment (in whole or in part) for, a benefit resulting from the application of any utilization review, as well as a failure to cover an item or service for which benefits are otherwise provided because it is determined to be experimental or investigational or not medically necessary or appropriate.

(5) The term “notice” or “notification” means the delivery or furnishing of information to an individual in a manner that satisfies the standards of 29 CFR 2520.104b–1(b) as appropriate with respect to material required to be furnished or made available to an individual.

(6) The term “group health plan” means an employee welfare benefit plan within the meaning of section 3(1) of the Act to the extent that such plan provides “medical care” within the meaning of section 733(a) of the Act.

(7) The term “health care professional” means a physician or other health care professional licensed, accredited, or certified to perform specified health services consistent with State law.

(8) A document, record, or other information shall be considered “relevant” to a claimant’s claim if such document, record, or other information

(i) Was relied upon in making the benefit determination;

(ii) Was submitted, considered, or generated in the course of making the benefit determination, without regard to whether such document, record, or other information was relied upon in making the benefit determination;

(iii) Demonstrates compliance with the administrative processes and safeguards required pursuant to paragraph (b)(5) of this section in making the benefit determination; or

(iv) In the case of a group health plan or a plan providing disability benefits, constitutes a statement of policy or guidance with respect to the plan concerning the denied treatment option or benefit for the claimant’s diagnosis, without regard to whether such advice or statement was relied upon in making the benefit determination.

(n) *Apprenticeship plans.* This section does not apply to employee benefit plans that solely provide apprenticeship training benefits.

(o) *Applicability dates.* This section shall apply to claims filed under a plan on or after January 1, 2002.

Signed at Washington, DC, this 15th day of November, 2000.

**Leslie Kramerich,**

*Acting Assistant Secretary, Pension and Welfare Benefits Administration, U.S. Department of Labor.*
