As a Blue Cross policy holder I am strongly opposed to this change and the sale of Blue Cross to Elevance. They are a left leaning DEI company who will not have the interests of policy holders as a priority. It will only prove to make medical care further away from the physician-patient and administrated from an unconcerned administrator in an office far away. I am concerned about Louisiana losing this healthy company which employs many Louisianans, only to eventually be moved to a headquarters elsewhere. Who gets rich from this? Will big pharma and political interests be at the forefront? Vote NO to this sale.
