I am totally against the sale of LA BCBS to Elevance Health, a "Not for Profit Company" to a "For Profit Company". I do not see how this could possibly benefit the policy holders of Louisiana. My family has had LA BCBS for many years. It has always paid well and in a timely manner. We DO NOT want this service jeopardized. From our research Elevance Health has had several lawsuits filed against their company in other states. It seems like the BCBS Board of Directors may be only ones to benefit from this sale while the policy holders possibly take a loss.
