1st-it is unfair that I wasn't informed of this pending sale/merger. According to your office, since Blue Cross is my supplement and not my primary is why I wasn't informed. This is crazy. I feel everyone who has LaBcbl-should be allowed to vote and voice their opinions. I do not agree with this sale/merger. Premiums will go up and services will go down. And most of us are on a fixed salary. When a company is in the business to make a profit (Elevance is that company) who suffers when their profit margin shrinks? The customers. So please do not let this happen.
