Please do not betray the common people of Louisiana who carry Blue Cross Blue Shield insurance coverage. Whether for primary or secondary coverage to Medicare, BCBS has been a reliable source of coverage for those people who have been loyal in paying their premiums and expect that same loyalty in return. As you should well know, this type of change is rarely a good thing for the common consumer, and I personally see this one covered in red flags. Please consider the people you represent by voting NO! Thank you in advance
