I am a practicing LCSW in the state of Louisiana and I too have GREAT concerns regarding this potential sale of Blue Cross Blue Shield to the company called Elevance Health/Anthem. Especially after hearing Chris Alexander of LACAG testimony against this very bad deal for BCBS policy holders and Louisiana citizens. I just wanted to join the chorus of Louisiana professional voices who are opposing this sale. Most of my clients use BCBS and the overwhelming evidence reveals they will be negatively impacted within a 1-2 year timeframe. Thank you for hearing my concerns. Patricia Wyles, LCSW
