This transaction looks worst and worst for the State of Louisiana every day. As more and more information surfaces it is apparent that this transaction is not in the best interest of Members, Policy Holders or the state at large. The ring leader of this corrupt sale Dr. I. Steven Udvarhelyi will hopefully face charges once this hearing is over. Dr. I. Steven Udvarhelyi and Elevance has paid off every single person or in entity that could prevent this unlawful sale from occurring. Payments to board members, voting members, board positions granted to the Governor and Insurance commissioner. That is just what we can read in the papers and public documents. There is not telling what is going on that we don't see in the public. He claims LA first and the sale is good for LA. Then he sells his house and tell Business report he could retire in the next two years. Just about the time that massive layoffs would be hitting BCBSLA if this transaction was to be approved. All of this makes it very clear this is just a retirement for Steve sell. This sale will result in many lost jobs at BCBSLA after the transition to Elevance systems has been complete. It cause many to look for work in other states, further reducing the number of talented professional living in the state of LA. This transaction will reduce the amount of competition in the state for health allowing Elevance to raise rates on members. Tim I urge you to see this transaction for what it is and deny this sale as is your duty to the people of LA. Give me a call if you want to talk about it. 225 937 0287 Glen
