Your Message	Please vote NO for the Blue Cross Blue Shield Louisiana buyout. This is not a good idea for us in Louisiana and for the patients, doctors and hospitals. I have been having BCBSLA for 30 years and I feel that if they do this buyout I will not be able to continue to see my doctors that I NEED to see. I also work for a neurologist and several of my patients are very worried that they will not be able to continue to see the doctor because of this buyout and continue to get their medication. They are also worried about their rates and medication prices going up even more. Please DO NOT LET THIS GO Thru.
