I am a retired state employee and is a recipient of Blue Cross/Blue Shield insurance. As a registered nurse I am well aware of medical services and insurance reimbursements. I am adamantly opposed to the sale of Blue Cross/ Blue Shield. Elevance is promoting themselves much the same way Medicare advantage programs sell themselves as providing all these great services that in reality are just not true. I encourage the insurance commissioner to speak to Registered Nurse Casemanagers from hospitals who try to access services promised versus what is truly provided for patients. I urge the department of insurance Sand our insurance commissioner to prohibit this sale
