I am totally against this merge! If you look at other states where Elevance has merged with Bc/Bsthereis proof of slow response to claim s being paid and at times not paid at all! There are a huge amount of lawsuits against Elevance not providing for no services doctors feel are necessary! There is precedent already in those states that choice of doctors is significantly limited. It seems blue cross and Elevance are attempting to BUY the votes they need to make this merger approved. This is absolutely not in the best interest of the insured!! Please do not approve!
