As a retired teacher with Blue Cross/Blue Shield health insurance, I am opposed to the sale of it to Elevance. I am on a fixed income and already pay over \$1000 a month in premiums. I am appalled that Blue Cross uses our money to run propaganda in favor of the sale. Anyone would be a fool to think going from a nonprofit to a for profit will benefit policyholders! Elevance's history is questionable in regard to its clients and I don't think this sale will change anything. Although I can't vote, which is unfair, I strongly say no to this sale.
