Your Message	I'm a senior citizen & I live in north Louisiana. Why not have a public hearing in Shreveport so those of us here can attend a meeting? Inflation has hit seniors living on SS hard. My monthly premium keeps going up. I have BCBS & had to change my policy due to rising rates. I was told when I changed tiers my rate would stay the same but it hasn't. As for myself, I don't understand all this insurance jargon that is in the letter I received today. This letter is in reference to a public meeting to be held February 14th & 15th in Baton Rouge.
