Your Message	<p>I am writing in opposition of the sale of non-for-profit Blue Cross to a for-profit entity. Consumers are never the priority of for -profits. Judging from the large amount of money going into the proposed foundation, the sale cannot be about the financial stability of Blue Cross. Those of us who have paid premiums all these years will never see a cent of that money. It will go for large foundation director salaries and maybe to a few organizations helping people for whom I already pay taxes to support. It is unfair that none of many state employees who pay Blue Cross premiums were allowed to vote on the sale as the individual policy holders were. At least require that Blue Cross give us an opportunity to vote on the sale. In addition, review Anthem's business record. It has had lawsuits against it in other states and now the University of California Health system won't have a contract with them. Protect Louisiana Blue Cross premium payors, do not allow the sale of Blue Cross to Anthem.</p>
