Subject: BCBSLA Buyout

On Mon, Sep 25, 2023 at 9:57 AM Sharon Verneti <svernetti@yahoo.com> wrote:

Until our (education, government, health employees) concerns that have been raised are properly addressed, we encourage the Louisiana Department of Insurance to not move forward with any necessary approvals of the proposed transactions. We are curious about the urgency to finalize this sale by October. It's essential that such a significant transaction receives thorough consideration to address potential risks and impacts.

We seek assurance that the recredentialing process for healthcare providers will not disrupt the continuity of care for policyholders. Transparent disclosure of Elevance Health's post-acquisition plans is pivotal in maintaining public trust. We kindly request your assistance in addressing these concerns and advocating for a transparent and fair acquisition process that prioritizes the well-being of Louisiana residents and businesses.

Sincerely,

Sharon Verneti
