Department of Insurance Office of the Commissioner

Regulation 85—Valuation of Life Insurance Policies (LAC 37:XIII.Chapter 109)

The Department of Insurance, pursuant to the authority of the Louisiana Insurance Code, R.S. 22:1 et seq., and in accordance with the Administrative Procedure Act, R.S. 49:950 et seq., hereby gives notice of its intent to amend Regulation 85.

The purpose of the amendment to Regulation 85 is to incorporate changes to the general calculation requirements for basic reserves and premium deficiency reserves that were made to NAIC Model Regulation #830.

Title 37

INSURANCE

Part XIII. Regulations

Chapter 109. Regulation Number 85—Valuation of Life Insurance Policies

§10909. General Calculation Requirements for Basic Reserves and Premium Deficiency Reserves

A. - B.3.a. ...

b. X is such that, when using the valuation interest rate used for basic reserves, Clause i is greater than or equal to Clause ii:

i. the actuarial present value of future death benefits, calculated using the mortality rates resulting from the application of X;

ii. the actuarial present value of future death benefits calculated using anticipated mortality experience without recognition of mortality improvement beyond the valuation date;

c. X is such that the mortality rates resulting from the application of X are at least as great as the anticipated mortality experience, without recognition of mortality improvement beyond the valuation date, in each of the first five years after the valuation date;

d. the appointed actuary shall increase X at any valuation date where it is necessary to continue to meet all the requirements of Paragraph B.3;

e. the appointed actuary may decrease X at any valuation date as long as X continues to meet all the requirements of Paragraph B.3; and

f. the appointed actuary shall specifically take into account the adverse effect on expected mortality and lapsation of any anticipated or actual increase in gross premiums;

g. if X is less than 100 percent at any duration for any policy, the following requirements shall be met:

i. the appointed actuary shall annually prepare an actuarial opinion and memorandum for the company in

conformance with the requirements of §2111 of Regulation 47;

ii. The appointed actuary shall disclose, in the Regulatory Asset Adequacy Issues Summary, the impact of the insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods; and

iii. the appointed actuary shall annually opine for all policies subject to this regulation as to whether the mortality rates resulting from the application of X meet the requirements of Paragraph B.3. This opinion shall be supported by an actuarial report, subject to appropriate Actuarial Standards of Practice promulgated by the Actuarial Standards Board of the American Academy of Actuaries. The X factors shall reflect anticipated future mortality, without recognition of mortality improvement beyond the valuation date, taking into account relevant emerging experience;
